Vintage Notes: After three harsh winters in a row, the 2016 winter was a significant diversion. Temperatures were primarily mild except for two extreme events that occurred in late winter. In each case, we utilized our wind machine that mitigated bud damage and maintained our crop levels for the coming season. Very little rain or snow fall in the winter months, followed by an extremely hot and dry growing season. In fact, the summer was one of the worst droughts in the history of this region. We started harvest with our cuvees for sparkling on Labor Day Weekend. Early fall rain pushed in to close out the 2016 harvest. Our last day in the vineyard took place in late October with some snow sprinkled on the ground.
